

Platform features

An overview of the essential tools
and how to use them for an optimal learning experience.

Dashboard

GoClass

The virtual classroom offers everything you need for smooth and effective teaching:

- Digital whiteboard
- Sharing and saving learning materials
- Glossary of key terms
- Access to materials after class

GoChat

GoChat is our messaging platform for communication between tutors and students.

- Exchange materials
- Send voice notes
- Arrange lessons

AI-supported Lesson Summary

Our AI tools automatically record lesson content and create clear reports for teachers, students and parents.

- Track progress
- Less administrative effort
- Automated lesson preparation
- Keep an eye on learning goals

Magic Quizzes

New GoClass feature for personalised, interactive quizzes at the end of each lesson.

- Quiz on lesson topics
- Instant evaluation of responses
- Identification of strengths and gaps
- Optimisation of the next lesson
- Less preparation time, more effective teaching

GoStudent Learning

AI-supported learning materials

Proven to help students learn x2 faster, our AI-supported content platform offers interactive learning materials including quizzes and practice questions to support self-study and revision.

Content library

The content is certified by experienced teachers and is based on the current guidelines and curricula for all age groups and school levels.

- Entertaining, interactive learning materials
- Revision exercises
- Quizzes

AI Tutor, Amelia

Amelia, our AI Tutor is trained on the local curriculum to help students with tricky questions. She can be used for any subject, at any time!
